

REDEFINING EXCELLENCE

Driving action **today** that will make a difference **tomorrow**.

Excellence is
measurable
collective
evolving
possible
honest
worth it
data-driven
overdue
hard
brave
innovative
within reach.

FOCUS ON THE FUNDAMENTALS

In 2018-19, the Centre will assemble the building blocks that are necessary to turn our strategic plan into reality.

PRIORITIES: We will reach out to stakeholders and cross-sectoral partners to co-develop a set of system and research priorities designed to close the most urgent service and knowledge gaps.

PROCESSES: We will establish a comprehensive framework for developing standards in child and youth mental health.

PARTNERSHIPS: We will strengthen existing relationships and establish new connections to support collaboration and collective impact.

PERFORMANCE: We will develop a new performance measurement framework for the Centre and actively participate in a system-wide effort to establish a quality framework for the sector.

OUR VISION

The best mental health and well-being for every child, youth and family.

OUR MISSION

We drive high-quality child and youth mental health services by setting the bar for excellence and collaborating with others to pursue continuous quality improvement.

OUR VALUES

Accountable: We use our resources wisely and ensure our investments make a difference.

Authentic: We lead and join candid and evidence-driven conversations about system excellence.

Collaborative: We know our unique strengths, recognize the expertise of partners and work with others to realize our collective vision of excellence.

Inclusive: We seek, embrace and amplify diverse perspectives to inform a high-quality system that works for everyone.

Innovative: We push the boundaries of the status quo to make room for the extraordinary.

Passionate: We believe children, youth and families deserve the best and we do what it takes to help them get it.

Strategic: We keep an eye on the future and make evidence-informed choices that will make the biggest difference for children, youth and families.

Excellence is possible, and it's long overdue. Join us on our collective journey to set the standard for child and youth mental health and deliver on the promise of system transformation.
